Jumia.com is one of the leading online E-commerce websites in Africa. It offers a range of products including furniture, home appliances, clothing, healthcare products, food items and other goods. Jumia is one of the few online stores that you can find all kinds of products without leaving home by simply visiting Jumia. Jumia offers you discounted prices on its various products for sale, but are they legitimate? We take a look at how to order from Jumia using Android devices. What's Very Important to Pay Attention to While Ordering From Jumia Using Android Devices (Step By Step) The user interface on jumia.com is an advanced one as compared to other website. There are three tabs for logging into the Jumia E-Commerce website; we will look at each of them and how to maximize its potential. The first tab is the first thing you see when you first log onto the site: it's called "Search." It has an easy-to-use interface and it allows you to search for stores selling specific products from clothing, electronics, etc. When you click on a specific store from the dropdown menu, a page loads with information about that store including all products available within that store category. There is also a detailed description about each product available in the store, category and size.
